## PATCH PANEL WITH HIGH DENSITY (DN-91424) – 48 PORTS IN ONE HEIGHT UNIT

This Patch Panel is an efficient way to increase the port density in the cabinets and can be obtained without Keystone Modules for personal assembling. It can be used universally in all 483 mm (19") distribution cabinets. The matching Keystone Jacks from DIGITUS® are available individually or in practical 24-packaging units.

MATCHING THE PATCH PANEL: KEYSTONE JACK DN-93619-24

## Long-term warranty on DIGITUS® Cabling Components

ASSMANN Electronic GmbH is standing for quality and customer satisfaction. Therefore, we grant you a system warranty on all passive copper & fibreglass cabling components from DIGITUS®.

### Guaranteed free of worries for the next 25 years.

The cabling infrastructure represents a long-term and strategic investment for every company. With the ASSMANN system warranty for DIGITUS® Cabling Systems, we ensure that the installation will provide a secure foundation for IT over a long period of time. This is why the 25-year warranty agreement is appealing to facility owners and operators.

DIGITUS®

## DIGITUS® Hook-and-Loop Cable Management System

The DIGITUS® Hook-and-Loop cable management system is used for fast and optimal cable routing in the network cabinet and wall mounting cabinet.

The innovative Hook-and-Loop cable management system consists of two components:

1. Self-adhesive mushroom tape, which adheres to all non-powder coated surfaces in the cabinet. Please degrease the non-powder coated surfaces before use.
2. Hook-and-Loop tape, which is ideal for bundling the cable strands in the cabinet.

### Purpose of use

- Ideal for bundling all common data cables (copper as well as fiber optic cables)
- Bundling of 2 - 48 data lines is easily possible (Diameter up to 60 mm and more)

### Order information

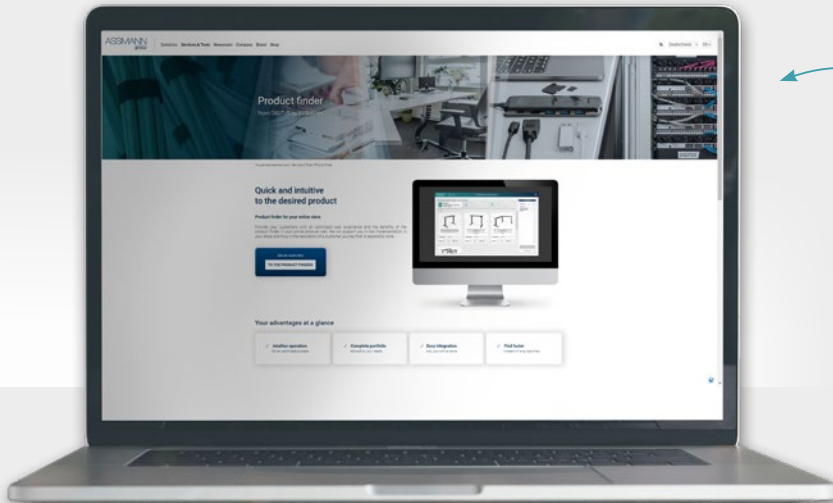

#### DN-CT-5M-25

Mushroom tape 2.5 m self-adhesive, Hook-and-Loop tape 5.0 m

#### DN-CT-10M-25

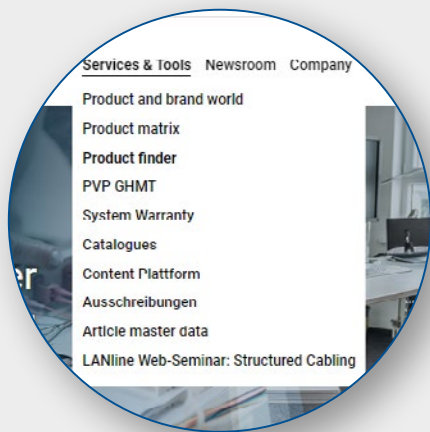

Mushroom tape 5.0 m self-adhesive, Hook-and-Loop tape 10.0 m
