

DIGITUS Штыревая антенна беспроводной сети

DN-70100
EAN 4016032179221

Wireless LAN omnidirectional antenna Gain: 5 dBi, RP-SMA connector, 19.5cm

Wireless LAN omnidirectional antenna, Gain: 5 dBi, RP-SMA connector, 19.5cm

Увеличивает дальность и зону покрытия беспроводной сети, улучшает качество сигнала

- Высокоэффективная штыревая антенна беспроводной сети
- Диапазон частот: 2,4 ГГц - 2,4835 ГГц
- Усиление: 5 дБи (при приёме)

- Всенаправленная
- Подходит для беспроводных сетей диапазона 2,4 ГГц
- Тип подключения: гнездо RP-SMA
- Длина: 19,7 см, диаметр: 12 мм
- Подходит для всех беспроводных сетевых устройств DIGITUS
- Подходящие крепления для антенн: DN-70101 или DN-70106

Package contents

- Штыревая антенна беспроводной сети, 5 дБи

Logistics

	Number (pcs)	Weight (kg)	Depth (cm)	Width (cm)	Height (cm)	cm³

Safety notes

- The performance of the antenna depends heavily on the location. Ensure that the antenna is installed in a location that allows optimum signal distribution, without obstacles such as thick walls or metal objects.
- To avoid sources of interference, antennas should not be installed near electrical devices such as microwaves, radios or other strong sources of

interference, as these can affect the signal.

- Avoid direct contact with salty air or other corrosive environments that could damage the antenna or connections.
- Check the antenna regularly for damage, loose connections or dirt. Dust or dirt on the antenna or the connections can significantly impair the signal quality.
- Make sure that the frequency of the antenna matches your network adapter or router.
- Ensure that the antenna in conjunction with the network adapter or router complies with local standards and approvals.

EU responsible person

EU based economic operator ensuring the product complies with the required regulations.
