

DIGITUS Repartidor VGA 350MHz, 2 portas

DS-41120-1
EAN 4016032323839

DIGITUS VGA Splitter, 2port, plastic housing 350 MHz, HDSUB 15/M -> 2x HDSUB 15/F, 1080p

Com um repartidor de vídeo pode usar uma fonte de vídeo para exibir imagens semelhantes em 2, 4, 8 ou 16 monitores - ou ainda em mais ecrãs por meio de menu em cascata. Portanto, pode ser usado um repartidor de vídeo em vários campos de aplicação, por ex. instalações de bancadas de ensaio, centros de dados, suporte técnico, transmissão de vídeo, apresentações e instalações educativas.

Permite a exibição em simultâneo de dois monitores diferentes - ideal para salas de aula, feiras ou demonstrações em estabelecimentos comerciais

- Caixa de plástico
- Largura de banda de vídeo: 350MHz

- Suporta DDC, DDC2, DDC2B
- Autônomo (máx. 64)
- Distância transmissão máx.: 75m
- Vídeo IN/OUT: HD DSUB, 15-pinos, tomada
- HDTV Resolution max.: 1920 x 1080 Pixel, 60Hz
- HDTV Standard: Full HD
- Number of ports: 2
- Signal input: VGA
- Signal output: VGA

Package contents

- Repartidor VGA 350MHz, 2 portas
- Manual de instruções

**Safety notes**

- If the device is powered by a plug-in power supply, ensure that the power adapter is connected correctly and meets the specified requirements (e.g. voltage and current).
- Only use certified CAT5e or CAT6 cables to ensure stable signal transmission.
- For particularly long cable runs or in environments prone to interference, it is recommended to use shielded network cables.
- Make sure that all connections are tight and secure to avoid loose contacts that could affect the signal quality. Make sure that the HDMI and Ethernet connections are connected correctly.
- Make sure that the CAT cable is not laid near high-voltage power lines or other strong sources of electromagnetic interference to avoid signal interference.
- Only operate the device within the specified temperature range.
- Do not use the device outdoors or in damp or wet environments
- Check all connections and cables regularly for wear or damage. Cables and connections can wear out, especially with frequent use or long installations, which can lead to poor signal quality or system failure.
