

# DIGITUS DIGITUS LC / LC двойной переход, OM4, розового цвета

DN-96019-1  
 EAN 4016032342298

**FO coupler, duplex, LC to LC, MM, violet, OM4 ceramic sleeve, polymer housing, incl. screws**

Переход обеспечивает оптимальную производительность и качество линка в оптоволокне.

**Отличной решение для монтажных коробок**

- LC / LC
- Двойной
- Втулка из циркониевой керамики
- Пластиковый корпус
- Жёлтый пылезащитный колпачок
- Поставляется с крепежным приспособлениями

**Safety notes**

- Avoid direct contact with light sources: Fiber optic cables, especially those with active light sources such as lasers (e.g. in optical communication systems), can emit dangerous radiation that can damage
- eyes. Take care never to look directly into the light of an optical fiber, even if the light source is invisible to the naked eye.
- When working with fiber optic cables, especially during tests or when working with lasers, protective goggles should always be worn to protect against harmful radiation.
- When plugging and unplugging the cable, only grasp the plug and do not pull directly on the cable.
- Do not kink or crush: Fiber optic cables are sensitive to mechanical stress.
- To protect cables from physical damage, they should be laid in special ducts or with protective materials
- Keep cable connectors clean: Fiber optic cables are sensitive to dust and dirt. Even small particles on the connectors can severely impair the signal quality.
- Cables should not be used in environments with extremely high or very low temperatures. Observe the product information on the maximum operating temperature of the cable
- Check cables regularly for visible damage such as cracks, kinks or signs of wear. Defective cables should be replaced immediately.

**EU responsible person**

EU based economic operator ensuring the product complies with the required regulations.
