

DIGITUS On Ear Office Headset with Noise Reduction, 3.5 mm Stereo

DA-12202
EAN 4016032474852

Stereo Office Headset, On Ear, noise reduction cable 1.95 m, 2x3,5mm stereo jacks

The on-ear headset from DIGITUS® offers optimal voice quality. Noise reduction lowers the disruptive environmental noise on the microphone so you can concentrate fully on your call. With two jack connections, the headset can be used either as a headset or as normal earphones. With the optional headset adapter (AK-510301-002-S), the headset can also be used on a combination jack (4-pole). Thanks to the adjustable headband, it can easily be adjusted to any head size for optimal wearing comfort. The microphone can be rotated by 300° to configure the headset for use on the right or left side. The foam cushion on the earpiece ensures wearing comfort so you can even enjoy longer phone conferences. Ideal for use in offices or at home, for phone conferences or web seminars.

Headset with noise reduction and flexible configuration options for optimal wearing comfort
