

DIGITUS Universal Docking Station, USB 3.0, Travel

DA-70894
EAN 4016032480914

Universal Docking Station, USB 3.0, 7-Port, Travel 2x Video, 2x USB 3.0, RJ45, 2x Card Reader

With the Universal Travel Docking Station, USB 3.0 from DIGITUS® you always have the most important interfaces with you. The docking station extends your notebook with seven additional ports. It offers two video interfaces (HDMI and VGA). The highest possible supported resolution (HDMI): 2560 x 1140@50Hz. It also offers two USB 3.0 connections. Using the Gigabit Ethernet connection, your notebook can also be integrated into the network via cable. To top it all off, the station features a removable card reader with 2 slots for MicroSD, SD cards. With its compact size, low weight and stowable connection cable, the docking station fits into any bag and is thus the perfect companion on the go and for travel.

Safety notes

- Overloading can lead to overheating and damage to the appliance or the connected peripherals.
- If necessary, use an external power supply to ensure stable performance.
- If devices such as external hard disks or printers that require a high power consumption are connected, the device should be used with an external power supply. Otherwise, the device could be overloaded or functional problems could occur.
- Do not expose the device to rain, moisture, vapors or liquids.
- Do not insert any objects into the device.
- Do not attempt to repair the unit or open the housing without authorization. You risk an electric shock!
- Ensure adequate ventilation to prevent damage due to overheating.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Disconnect the appliance from the power supply and the connected devices before cleaning.
- Clean the device with a dust-free cloth.
