DN-95211  
EAN 4016032495406

**Gigabit Ethernet PoE Splitter, 802.3af/at/bt Output: 12V/4,2A,24V/2,1A, 50W**

The PoE Splitter provide data and power via a single Ethernet Cable to devices, which are not supporting Power over Ethernet. Just connect the input of the Splitter to a PoE Switch or PoE Injector and the output side to a non-PoE network device such as an access point, IP Phone or a Camera to provide Power and Data. The Extender is self-powered by PoE, so there is no additional power supply needed. The output voltage can be regulated via a dip switch to 12V or 24V. So this Splitter expand your network where you wish to place network device where are no power outlets available.

**The PoE splitter supplies data and power to devices with up to 51W via a single Ethernet cable.**
