FTTH Distribution Box, Singlemode, LC-APC Pre-assembled Couplers, Pigtails

The equipped fiber distribution box is a special housing designed for the management, termination and distribution of fiber optic cables and is particularly suitable for smaller deployments with up to 12 fiber optic connections. The box can be used both as a distribution box in buildings and as a house connection point. The box comes pre-assembled with all key components such as pigtails, adapters and splice cassettes, making it a ready-to-use solution that simplifies installation and reduces set-up time. With a capacity of up to 12 fiber connections, it is ideal for residential buildings, small businesses or apartment buildings. Technicians can simply splice the incoming fiber to the pre-installed pigtails, connect the cables to the adapters and mount the box in the desired location.

The fiber optic distribution box is a robust, organized and pre-assembled solution that simplifies the installation of fibre optic networks. It enables installers to connect homes and businesses to reliable high-speed networks quickly and efficiently.

- Fiber distribution box for 12 crimp splices, ready to splice
- Including pigtails, splice holders and adapters
- 1x 12-color LC/APC pigtail set OS2 G657.A1, LSZH, 0.9 mm
