

DIGITUS Ergonomic trackball mouse, wireless

DA-20156
EAN 4016032475590

Wireless Ergonomic Optical Trackball Mouse, red 8D (Buttons), 2.4GHz, rechargeable battery, black

The ergonomic mouse/trackball solution from DIGITUS® is easy on your joints by reducing arm and wrist movement. It promotes a natural hand posture, because navigating is primarily done via the optical trackball. The mouse connects to your PC, Mac or Android device either via Bluetooth or the included USB receiver. Up to 3 devices can be assigned and switched at the touch of a button if necessary. The resolution of the optical sensor can also be changed to 3 different sensitivity levels, allowing the mouse to be optimally adapted to the respective device or application. In addition, the integrated buttons for the "forward/backward" functions make your daily work easier. The integrated 600 mAh battery ensures long operating times and, thanks to the USB-C™ charging port, faster charging times.

Ergonomic trackball mouse with dual connection via Bluetooth or USB dongle, 7 buttons with USB-C™ port.

- Connection possible via Bluetooth or USB Nano receiver
- Connection possible with 3 devices, switchable at the touch of a button (2 x Bluetooth / 1 x USB wireless)
