DECO-X50-POE-3P
EAN 4897098687918

The access points of the TP-Link DECO series, with their minimalist, modern design, are particularly suitable for private environments. They are capable to be mounted on ceilings and walls or make a good figure standing. The integrated MESH function allows the devices to be easily connected to each other wirelessly, if wiring is not possible. The DECO x50 PoE access points can be powered either by the included power brick or via PoE (802.3at) through the 2.5Gbps network interface. Additionally, a 1Gbps RJ45 interface is installed to connection other network devices direct.
