

Diverse Tripod Screen Portable Series, 254 cm (100"), 203 x 152 cm, 4:3

GV-PT-H100-WP5
EAN 6939982358103

The Tripod Screen series "Portable" is a simple to use and multi-format screen line-up. It's small transport size has been designed to fit into most vehicles while still being easy and quick to set up at the respective destination. The diverse aspect ratios and screen formats add to the lineup's flexibility, being able to be used for business presentations, home theatre applications and even for overhead projections, e. g. in school environments. The goal of this series' design is a universally portable screen with the best ergonomics possible to ensure a simple and trouble-free experience. With the unit being closed, the tripod will automatically be locked. The base support can still be opened easily while the comfortable soft rubber can help alleviate pressure while providing a better grip.

- Design - Fashionable black alloy case, ideal for applications on the move: business, exhibitions, meetings, classrooms, etc.
- Compact and lightweight, height adjustable stand, easy to carry and set up - Advanced self-locking extension tube with soft rubber handle for a broad variety of projectors
- Four-layer fabric with fiberglass - The projection surface utilizes unique materials creating a smooth surface for superior image quality, a colour-rich reflection and sharp images
- High flexing rate of less than 1% compared to 33% for chemically treated fabrics
- The special tilting keystone elimination system reliably eliminates distorted images
