

# MIKROTIK MikroTik RouterBOARD RB2011UiAS-RM

M-RB2011UIAS-RM  
EAN 9010386000649

The RB2011 is a low cost multi port device series. Designed for indoor use, and available in many different cases, with a multitude of options. The RB2011 is powered by RouterOS, a fully featured routing operating system which has been continuously improved for fifteen years. Dynamic routing, hotspot, firewall, MPLS, VPN, advanced quality of service, load balancing and bonding, real-time configuration and monitoring - just a few of the vast number of features supported by RouterOS. RouterBOARD 2011UiAS-RM, in comparison with RB2011L series, not only has five Gigabit LAN ports and five Fast Ethernet LAN ports, but also has RJ45 serial port, microUSB port and more RAM (128MB instead of 64MB). Also, it has RouterOS L5 license (instead of L4) and nice touchscreen LCD for configuration. SFP cage is also present (SFP module not included!) There is PoE output function for port #10 - it can power other PoE capable devices with the same voltage as applied to the unit. Maximum load on the port is 500mA. Tested and recommended to use with MikroTik SFP modules: S-85DLC05D, S-31DLC20D and S-35/53LC20D (not included) RouterBOARD 2011UiAS-RM comes with 1U rackmount enclosure, LCD panel and power supply. MikroTik RouterOS version 5.x level 5 licence level 5 free upgrades to MikroTik RouterOS version 7.x licence never

expires licence valid for one installation unlimited number of interfaces supports accesspoint (AP), wireless station/client, point 2 point and point 2 multipoint setups enhanced WIFI performace with MikroTik Nstreme and MikroTik Nv2 with TDMA support RIP and OSPF and BGP support unlimited number of EoIP tunnels up to 500 PPPoE tunnels unlimited number of PPTP tunnels unlimited number of L2TP tunnels unlimited number of OVPN tunnels unlimited number of VLAN interfaces up to 500 active hotspot users up to 50 active MikroTik Usermanager sessions

- Atheros AR9344 CPU, 600MHz
- 128MB DDR SDRAM
- 5 x 10/100 MBit Ports
- 5 x 10/100/1000 MBit Ports
- 1 x SFP Port
- LCD Display mit Touch Screen
- Micro USB Port
- Serieller Anschluss
- MikroTik RouterOS Level 5 Lizenz
- Komplettsystem im 19 Zoll Gehäuse (1HE) inkl. Netzteil
