### Industrial Gigabit PoE+ Injector 802.3af/at 60W power output, DIN rail and wall mount design,

The Digitus PoE Injector allows you to minimize cabling during installation of PoE-ready devices such as IP network cameras. Data supply and power supply to the devices is accomplished using a single Ethernet cable. This makes laying a separate power cable unnecessary and allows you to extend your network to places where there are no outlets or power cables. The Injector is fully compliant with the IEEE802.3at Ultra PoE standard and delivers an output power of 60 W.
