USB hard disk enclosure, external, SATA 6Gbps, USB 3.1 Gen2, aluminum, toolfree

The DA-71154 M.2 SATA SSD enclosure offers a powerful and versatile storage solution for all your data needs. It supports M.2 modules in 2230, 2242, 2260 and 2280 formats and is compatible with a wide range of SSDs. With a capacity of up to 8 TB, it offers enough space for all your files and data. Thanks to the fast data transfer rate of 6 Gbps and the USB 3.1 Gen 2 interface, which is backwards compatible with USB 3.1, 3.0, 2.0 and 1.1, you can enjoy fast file transfers and smooth performance. The plug-and-play design allows for easy installation without complicated settings. The robust JMS576B chipset ensures reliable and efficient performance, while the integrated LED indicator allows easy monitoring of SSD status. The durable and stylish aluminum housing in Pantone 430C provides excellent passive heat dissipation. With compact dimensions of 101x32x10 mm and a weight of only 97 g, the housing is ideal for mobile use and compatible with Windows, macOS, Linux, Google Chrome OS, Android and iOS.

The DA-71154 M.2 SATA SSD enclosure will become your preferred solution for high capacity and high speed storage. This elegant, tool-less enclosure supports mini SSDs in M.2 B+M key format.
