

Planet Ultra PoE Injector, 60 Watts, 56V, Gigabit, integrated Power Supply

POE-172
EAN 4711605282062

Planet Ultra PoE Injector, 60 Watts, 56V, Gigabit, integrated Power Supply

802.3bt ready! Ultra Power over Ethernet Injector, compatible with 802.3af and 802.3at, 10/100/1000 Mbps, enables the transmission of up to 60 watt DC power (50 watts net at the PD) and Ethernet through a normal patch cable up to 100 meters, 56V, needs 4 pairs (i.e. at least Cat. 5e cable), integrated power supply. Since Ultra POU is not yet

standardized, the separately sold POE-171S can be used at the other end of the cable to split data and power, so the full power is available (for devices without POE but with 12V, 19V or 24V DC). Of course POE 802.3at (30 watts) and 802.3af (15 watt) PD can be used without a splitter.

Attributes

- Industrial usage: no
