

Planet HDMI over IP Transmitter, 1080p, PoE

IHD-210PT
EAN 4711605282505

Planet HDMI over IP Transmitter, 1080p, PoE

HDMI Extender via Ethernet / IP, power supply via PoE 802.3af (max. 7W). A 100 Mbps connection is sufficient (video stream requires approx. 15 Mbps). Requires IHD-210PR on the opposite side. Signal distribution to single or multiple displays, 64 channels configurable via DIP switches. If multiple receivers are used, IGMP multicast can be used to reduce the network load to a minimum (switch must support IGMP snooping and 802.1q VLAN; without these features, the solution

only works without multicast, i.e. with normal network load of 15 Mbps per display), supports EDID (Extended Display Identification Data), resolution max. Full HD 1080p, 2-channel audio, 1 x HDMI type A input, 1 x HDMI type A output, HDCP compliant, 1 x RJ45. Without power supply. Dimensions 130 x 82 x 30.25 mm, weight 290 grams.

- KVM: no
- PoE (Power over Ethernet): no
