

DIGITUS Wireless LAN Rod Antenna

DN-70100
EAN 4016032179221

Wireless LAN omnidirectional antenna Gain: 5 dBi, RP-SMA connector

Wireless LAN omnidirectional antenna, Gain: 5 dBi, RP-SMA connector, 19.5cm

Expands the Wireless LAN in range and coverage - Improves the wireless signal quality

- Wireless LAN high performance rod antenna
- Frequency range: 2.4GHz - 2.4835GHz
- Gain: 5dBi (reception)

- Omnidirectional
- Suitable for 2.4GHz Wireless LAN
- Connection via RP-SMA socket
- Length: 19.7cm, diameter: 12mm
- Suitable for all DIGITUS® Wireless LAN products
- Suitable stands for antenna: DN-70101 or DN-70106

Package contents

- Wireless LAN rod antenna, 5 dBi

Safety notes

- The performance of the antenna depends heavily on the location. Ensure that the antenna is installed in a location that allows optimum signal distribution, without obstacles such as thick walls or metal objects.
- To avoid sources of interference, antennas should not be installed near electrical devices such as microwaves, radios or other strong sources of

- interference, as these can affect the signal.
- Avoid direct contact with salty air or other corrosive environments that could damage the antenna or connections.
 - Check the antenna regularly for damage, loose connections or dirt. Dust or dirt on the antenna or the connections can significantly impair the signal quality.
 - Make sure that the frequency of the antenna matches your network adapter or router.
 - Ensure that the antenna in conjunction with the network adapter or router complies with local standards and approvals.
