**ORMAR 5U 19" 522X480X150 SLIM/NAPA CRNI 3U rotatable, 2U fix, color black (RAL 9005)**

The SOHO, Slim wall-mounted enclosures are ideal for housing active and passive components. They are characterized by simple and time-saving installation. The modern design fits into any office or home. The enclosure has 2 separate installation options: A rotatable vertical 3U rail is attached to the front. Alternatively, this can also be positioned horizontally or at an angle. A horizontal 2U rail is attached to the rear (fixed), which can be used for passive network components, for example. The punched-out mounting holes in the entire lower housing area also allow components that are not 483 mm (19") compatible to be installed (e.g. DSL routers, etc.). Alternatively, a mounting plate can be fitted, which is available as an option.

**DIGITUS® wall-mounted enclosures are manufactured, designed and developed to meet the high demands of IT infrastructure.**
