Gigabit Ethernet PoE++ Injector, 802.3at Power pins: 4/5(+),7/8(-) and 3/6(+), 1/2(-), 95W

The Digitus PoE Injector minimizes your cabling when installing PoE compatible devices such as IP network cameras. Only the Ethernet cable is used for the data feed and power supply for the devices. This eliminates the need to install a separate power line, and you can extend your network where there are no power outlets or power lines. The injector is fully compatible with the IEEE 802.3af/at PoE standard and delivers output power of up to 95W.

Minimize cabling for wireless APs, IP phones, or any other PoE compatible device!
