#### **Bluetooth 5.0 Dongle**

With the DIGITUS® Bluetooth USB Adapter, you can use the fast Bluetooth 5.0 standard with high transmission rates of up to 3 Mbps. This allows you to transmit files, images or music quickly and in high quality. The adapter can be used for mobile devices, for connections between computers, for connecting Bluetooth accessories of all kinds and is supported by the most common gaming consoles. These include controllers, headphones, speakers, keyboards, mouses, printers, tablets or smartphones. It is also possible to use dual mode, LAN function, printer control and the serial port function (SPP). The range of the Bluetooth dongle is between 10 and 20 meters depending on the on-site conditions. The BLE function ensures that the power consumption is always adapted to the capacity that is currently required.
